

Tax-Pro: Revolutionizing Indian Tax Planning

Shifting from "**March Panic**" to Year-Round Financial Mastery.

The Compliance Gap

The "March Panic"

70% of Indians suffer from reactive, last-minute investing.

- ❑ Tax is currently seen as an annual burden, not a monthly wealth-building habit.

Data Friction

Manual entry causes **60%** user drop-off during filing.

Target Audience & Personas

Salaried X (25-35)

Needs automation for ITR-1 and 80C optimization.

Freelancer Y (30-45)

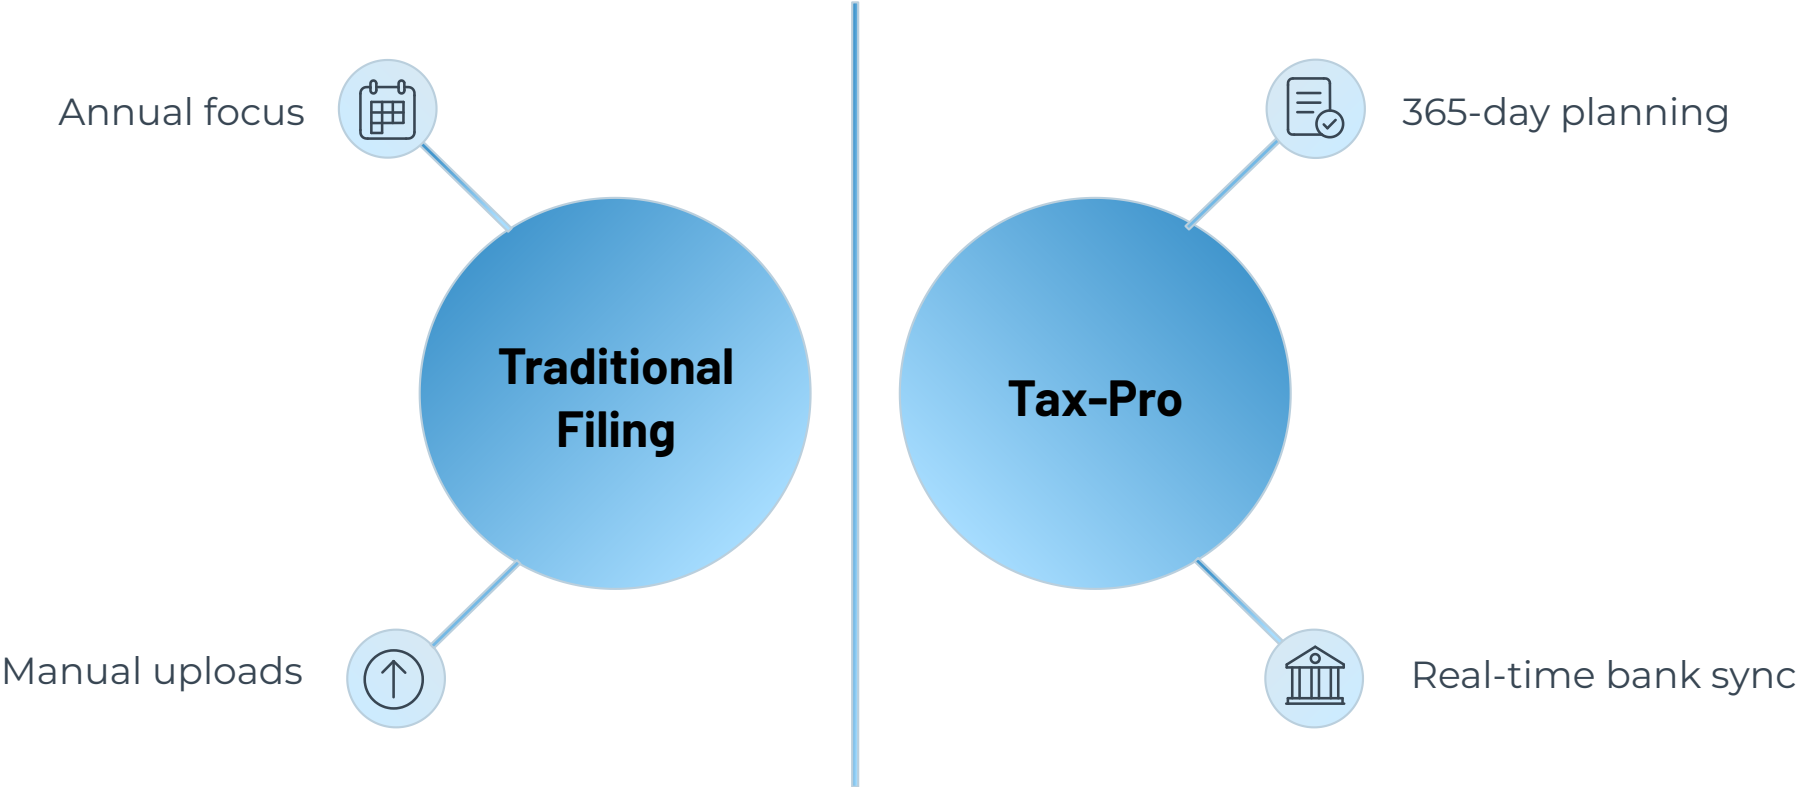

Needs help with 44ADA and quarterly tax tracking.

Investor Z (40+)

Focuses on LTCG/STCG and RSU/ESOP complexity.

Our Strategic Moat

We integrate directly with bank data and internal investments to provide **real-time advice**.

AI-Powered Planning

Tax Health Check

Interactive assessment of current tax efficiency.

2-Minute Liability

Get predicted tax liability in under 120 seconds.

Regime Comparison

Instant Old vs. New Regime analysis (2025-26 slabs).

Old Regime

- ✓ Section 80C deductions
- ✓ Section 80D deductions
- ✓ HRA exemptions
- X Higher tax slabs

New Regime

- ✓ Lower tax rates
- ✓ Simplified filing
- X No 80C/80D deductions
- X No HRA exemption

The AI "Data Vault"

Frictionless Ingestion

- AI/OCR scanning for Form 16 & 26AS
- **85% reduction** in manual entry
- Bank-grade encryption
- DPDP Act compliant

Welcome back, X! 🙌
